LEARN TO SWIM SQUAD

Armbands are the key to making little explorers feel confident in deeper water, and ready to unlock adventure beyond the shallows.

MOVE

Starting in the shallows, walk out into deeper water - can their toes still touch the bottom? What happens if they try kicking their feet as they stay in one place?

PROGRESS

As your little adventurer begins kicking, they will naturally rotate onto their front with their head up. Encourage them to kick and use their arms for balance.

CHALLENGE

As their swimming ability improves and their confidence increases, challenge them to swim a whole width of the pool without their toes touching the bottom.
